Joint CSR Projects in non-mining regions of Namibia

April 2017

Werner Ewald

Mines in Namibia

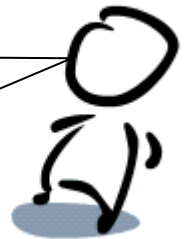

MINING CHARTER

Pillar 5: Communities and Infrastructure

The objective of this pillar is to ensure that mining companies contribute towards the transformation and upliftment of the communities in which they operate as well as the country as a whole.

Strategic Plan: (Item 4.4)

Roll out Corporate Social Responsibility (CSR) programs to collectively cover all Regions of Namibia

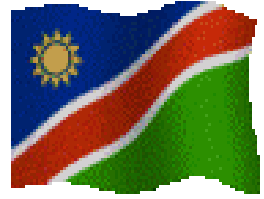

**What initiatives
have the Chamber
members
undertaken in 2016
to collectively cover
all regions?**

The Rössing Foundation

Partnership in Education and Development

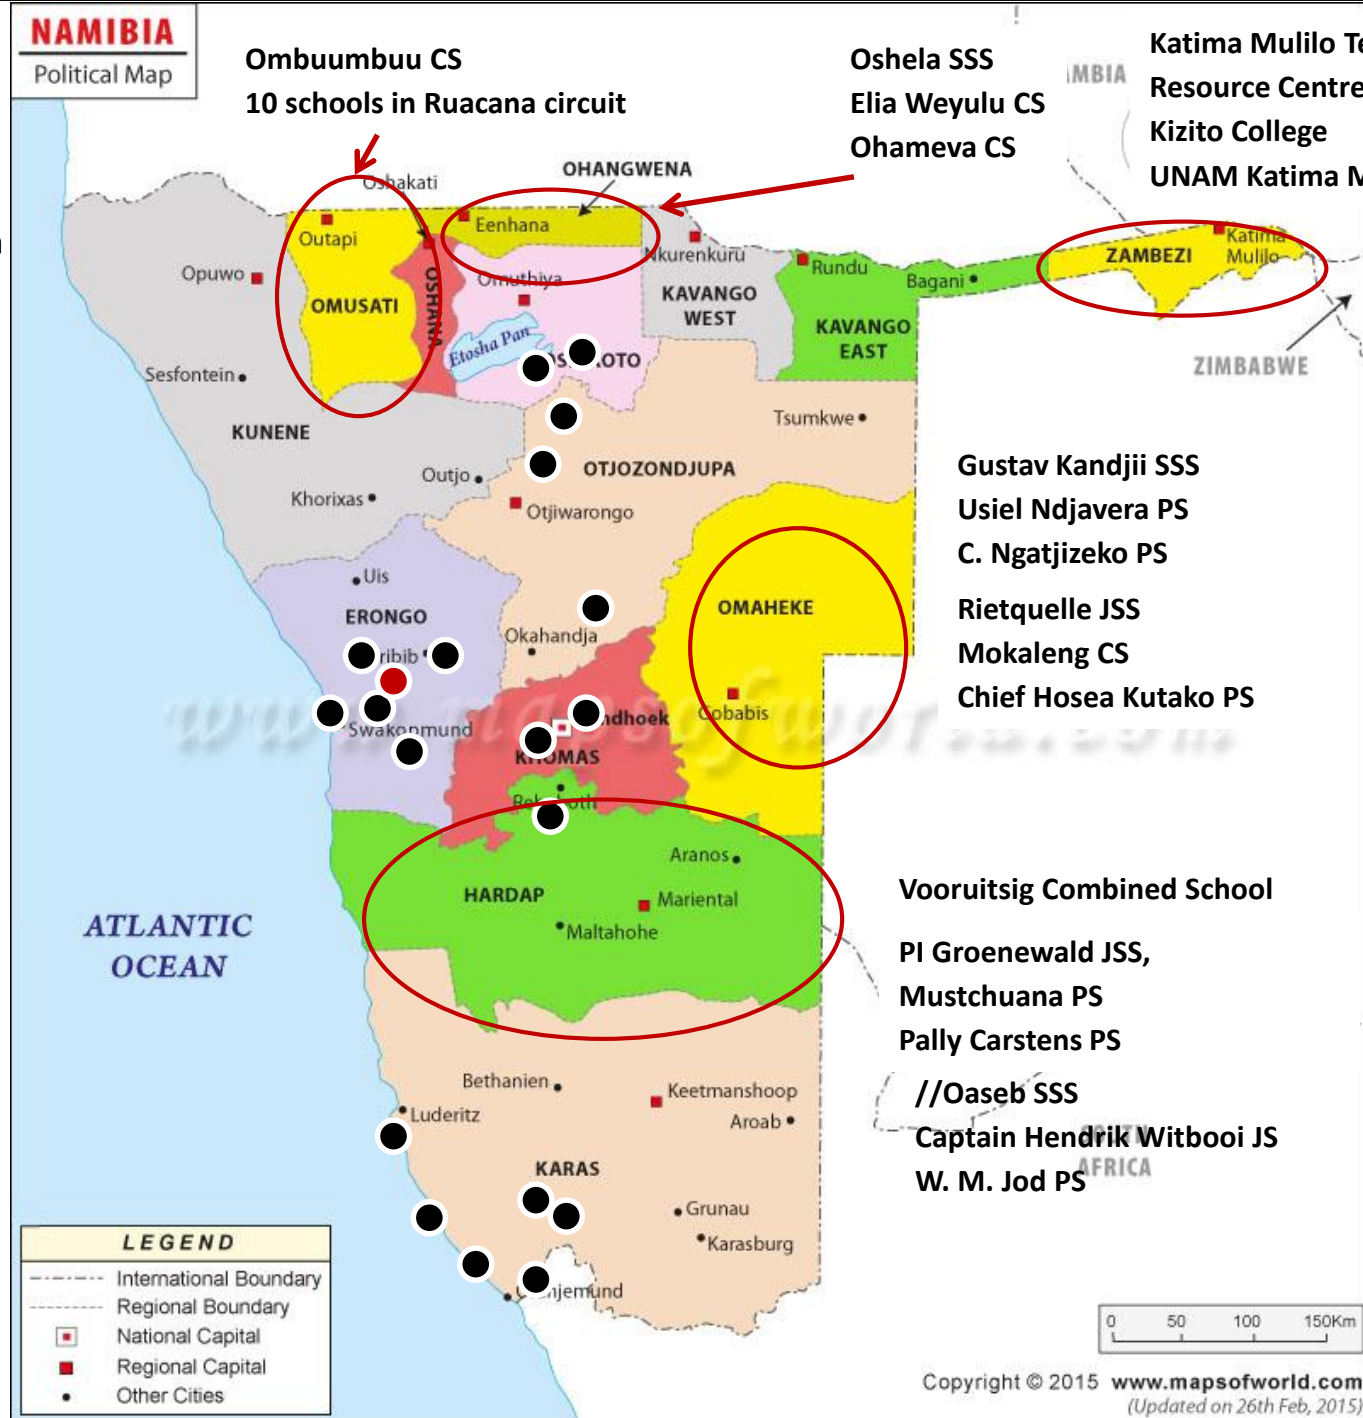

The Rössing Foundation, through the support of key stakeholders, has committed itself to supporting the education sector to **improve and maintain quality education** delivery focusing on English, Mathematics, Sciences (Biology, Life Science, Natural Science, Health Education and Physical Science), Junior Primary and Library services

Installation of solar geysers

CSR Projects that impacted non-mining regions

- National Mathematics Congress – 230 teachers from all regions of Namibia;
- National Debating Championships – 3 debaters from every region in Namibia;

-
- National Drought Relief;
 - President's Winter Blanket Initiative;
 - One Economy Foundation – Educational;

CSR Projects that impacted non-mining regions

- National Mathematics Congress – 110 participants from regions where little or no mining takes place

WALVIS BAY SALT HOLDINGS

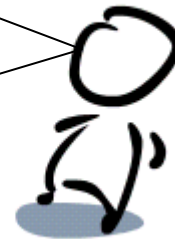

-
- Oshela Senior Secondary School support
 - Khorixas town development support

-
- Conservancy member skills training

**A collective roll-out
of CSR to all
regions.
The CoM's concept
proposal.**

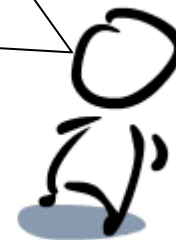

Criteria for successful initiatives

- Initiatives must have sustainable impacts;
- Aligned with national development priorities;
- Focus on creating benefits for poor rural communities;
- Demand driven and create partnerships with local communities;
- Must add tangible value with clearly defined outputs and outcomes;
- Are locally led;
- Do not create dependency on the funding source;

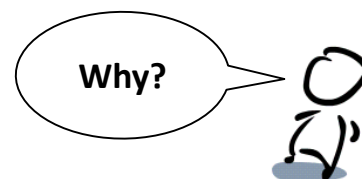

**It is more complex
and expensive to
find good projects
in regions in which
mining companies
are not acquainted**

The Chambers proposes the following process:

- Focus the joint CSR projects through communal conservancies;

- a) Occur in all non-mining regions of Namibia;
- b) Often occur in remote, under-supported & under-developed areas;
- c) Are local democratic institutions recognized by GRN and gazetted;
- d) Have a committee, constitution & governance structure;
- e) Work at the socio-economic and environmental interface, thus offering sustainable development.

Thank you

**“let us continue to pull together in
the same direction”**
