

Mining Expo & Conference 2026 | 5th August 2026

Delivering Investment, Jobs and Regional Growth

Unlocking long-term economic prosperity for Erongo and Namibia
through the development of the Tumas Uranium Project.

Zebra Kasete
Managing Director – Deep Yellow Namibia

DYL: ASX / NSX (Namibia)
DYLLF: OTCQX

Disclaimer

This presentation has been prepared by Deep Yellow Limited ABN 97 006 391 948 (Company or Deep Yellow) for general information purposes only. The presentation does not constitute a prospectus or equivalent document, nor does it constitute financial product or investment advice. It does not take into account the investment objectives, financial situation or particular needs of any investor.

The presentation is not and should not be considered as an offer or invitation to subscribe for or purchase any securities in the Company, or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this presentation.

The presentation has been prepared by the Company based on information available to it. Due care and attention has been taken in the preparation of this presentation, however the information contained in this presentation (other than as specifically stated) has not been independently verified for the Company or their respective directors and officers, nor has it been audited. Accordingly, the Company does not warrant or represent that the information contained in this presentation is accurate or complete. To the fullest extent permitted by law, no liability, however arising, will be accepted by the Company, or their respective subsidiaries, directors, officers or advisers, for the fairness, accuracy or completeness of the information contained in the presentation. No responsibility or liability is assumed by the Company or their respective subsidiaries, directors, officers or advisers for updating any information in this document or to inform any recipient of any new or more accurate information or any errors of mis-descriptions of which the Company or any of its respective directors, officers or advisers may become aware.

Financial Information

All dollar values are in Australian dollars (A\$ or AUD) unless

otherwise stated. Amounts, totals and change percentages are calculated on whole numbers and not the rounded amounts presented. This presentation includes certain historical financial information extracted from audited consolidated financial statements and information released to ASX (collectively, the Historical Financial Information). The Historical Financial Information is presented in an abbreviated form insofar as it does not include all the presentation and disclosures, statements or comparative information as required by the Australian Accounting Standards (AAS) and other mandatory professional reporting requirements applicable to general purpose financial reports prepared in accordance with the Corporations Act.

Past Performance

Past performance metrics and figures (including past share price performance of the Company), as well as pro forma financial information, included in this Presentation are given for illustrative purposes only and should not be relied upon as (and is not) an indication of the Company or any other party's views on the Company's future financial performance or condition or prospects. Investors should note that past performance of the Company, including in relation to the historical trading price of the Company's shares, mineral resources, costs and other historical financial information cannot be relied upon as an indicator of (and provides no guidance, assurance or guarantee as to) future performance, including the future trading price of shares in the Company. The historical information included in this Presentation is, or is based on, information that has previously been released to the market.

Forward Looking Statements

This presentation contains "forward-looking information" that is based on the Company's expectations, estimates and projections as of the date on which the statements were made. This forward-looking information includes, among other things,

statements with respect to the pre-feasibility and any feasibility studies, the Company's business strategy, plan, development, objectives, performance, outlook, growth, cash flow, projections, targets and expectations, mineral resources, results of exploration and related expenses. Generally, this forward-looking information can be identified by the use of forward-looking terminology such as 'outlook', 'anticipate', 'project', 'target', 'likely', 'believe', 'estimate', 'expect', 'intend', 'may', 'would', 'could', 'should', 'scheduled', 'will', 'plan', 'forecast', 'evolve' and similar expressions. Persons reading this presentation are cautioned that such statements are only predictions, and that the Company's actual future results or performance may be materially different. There can be no assurance that actual outcomes will not differ materially from forward-looking statements. Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the Company's actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking information. Forward-looking information is developed based on assumptions about such risks, uncertainties and other factors which are subject to change, including but not limited to general business, economic, competitive, political and social uncertainties; the actual results of current exploration activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of uranium; possible variations of ore grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accident, labour disputes and other risks of the mining industry; and delays in obtaining governmental approvals or financing or in the completion of development or construction activities.

Deep Yellow Project Milestones

- **Core Flagship Projects:**
 - **Tumas Project (Namibia):** Mining License ML237 issued; flagship project advancing toward FID.
 - **Mulga Rock Project (Western Australia):** Advanced asset progressing through a revised Definitive Feasibility Study (DFS).
- **Exploration & Growth Pipeline:**
 - **Omahola Project** (Namibia)
 - **Alligator River Project** (Northern Territory, Australia)
 - Targeted M&A for high-quality global uranium assets.

What is Tumas?

A World-Class Uranium Asset

Flagship Mineral Deposit: Located in the world-renowned Erongo uranium region on Mining Licence (ML 237).

30+ Year Mine Life: Designed for multi-decade operations with a planned production capacity of ~3.6 Mlbs U_3O_8 p.a.

Local Empowerment Ownership: Deep Yellow holds project ownership, with local empowerment partner **Oponona Investments** holding the right to acquire a 5% equity interest post-FID.

Proven Leadership: Backed by Deep Yellow Limited (ASX: DYL, NSX: DYL), bringing proven expertise in uranium mine execution.

Where Are We Today?

Key Milestones Achieved

Major Contracts Awarded: Deep Yellow has awarded two civil and concrete construction contracts totaling **N\$392.6 million** (approx. **A\$34 million**) for the flagship **Tumas Uranium Project** in Namibia

Local Commitment: Awarded 100% to Namibian-owned contractors—**Namibia Construction Pty Ltd** (N\$213M / ~A\$18.5M) and **Nexus Building & Civils Contractors Pty Ltd** (N\$179.6M / ~A\$15.5M).

Mobilization begins in **August 2026** as part of a disciplined de-risking phase ahead of the Final Investment Decision (FID) targeted for **Q4 2026**.

Jobs & Female Empowerment

Targeted Local Inclusion

Deep Yellow is committed to creating meaningful employment that uplifts local communities in the Erongo region.

~500 Construction Jobs: Immediate employment generated through the newly awarded civil and concrete packages.

Unemployed Graduates: Structured pathways and apprenticeships for young Namibian university and vocational graduates.

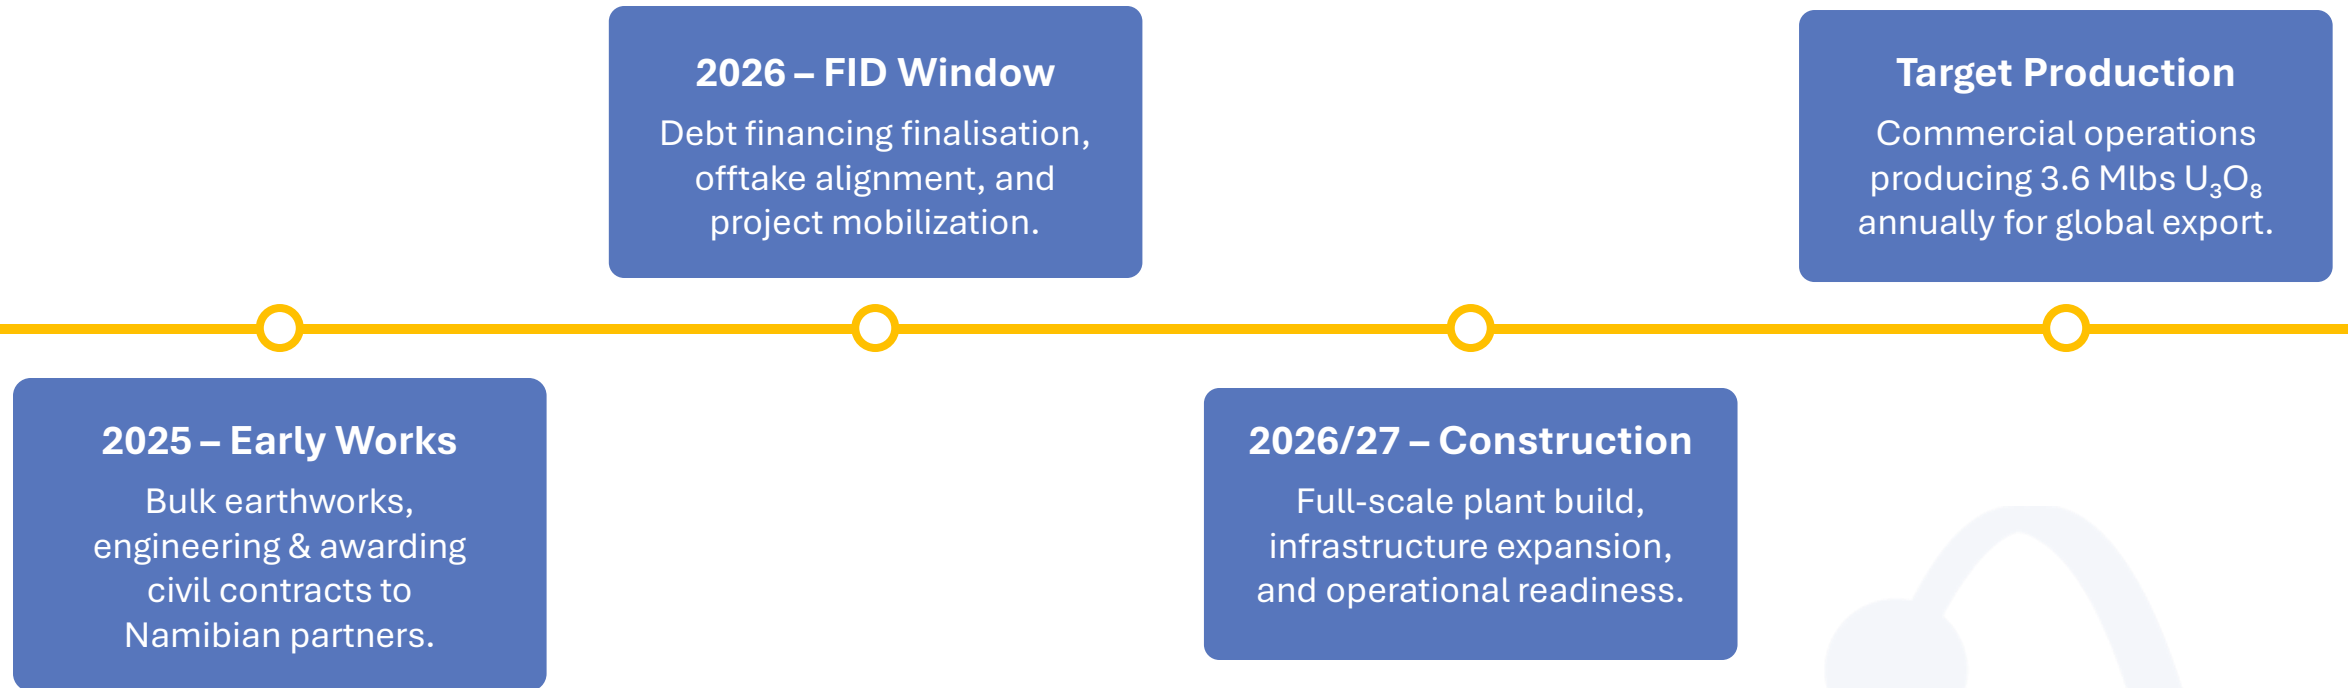

Female Representation: Explicit focus on recruiting and advancing women in technical, engineering, and leadership roles.

Approximately 600 permanent jobs will be created in both mining and rest of plant once operational phase is reached.

Project Timeline & Vendors

Vendor & Service Registration: Local Namibian vendors and service providers are encouraged to pre-register on the Deep Yellow Namibian Procurement Portal for upcoming tender packages which include construction, consultancy, leasing, goods and services.

Economic & Fiscus Impact

Driving National Value

US\$474M

Potential Direct Foreign Capital Investment
(~N\$8.5 Billion) upon FID

Direct Revenue Contributions

Substantial state revenues through Corporate Income Tax, 3% Royalty payments, and direct export levies over 30+ years.

Regional Multiplier Effect

Stimulating growth across Swakopmund and Walvis Bay in housing, logistics, accommodation, and community services.

Value Addition Opportunity for Namibia

- Namibia is one of the world's leading uranium producers, yet currently exports most output as raw uranium oxide.
- Establishing domestic processing & conversion capabilities captures significant down-stream value.
- Moving Beyond Mining to In-Country Processing

Key Benefits of Local Processing:

Skilled Jobs & Technical Expertise

Builds specialized domestic workforce capabilities and advances high-tech engineering knowledge.

Nuclear Sector Investment

Attracts international capital and strategic technology partnerships in energy-adjacent industries.

Increased Export Value

Maximizes national revenue and foreign exchange earnings by exporting processed derivatives.

Global Supply Chain Positioning

Strengthens Namibia's strategic role as an indispensable node in the international nuclear fuel chain.

Industrialisation & Diversification

Catalyzes broader economic growth, supporting industrial ecosystems and secondary manufacturing.
