

Chamber *of* Mines
OF NAMIBIA

FROM DIALOGUE TO DELIVERY
*REFLECTIONS ON MINING'S COMMITMENTS AND THE PATH
FORWARD*

Mr. Fabian Shaanika, CEO, Chamber of Mines
Mining Expo and Conference, 2026
05 AUGUST, 2026

Upcoming Mining Project Pipeline

Project momentum is shifting from commitments to delivery, with uranium, gold, copper and critical minerals leading the next wave of growth.

1

Projects moving to delivery

- **Twin Hills Gold:** construction underway; 13-year LoM
- **Etango Uranium:** early works on schedule; water agreement secured
- **Tumas Uranium:** licensed; financing/FID pathway progressing
- **Husab - NamWater Desalination Plant**

2

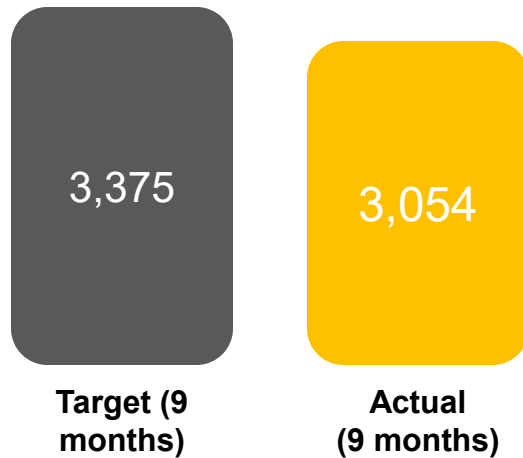

Next wave of diversification

- **Haib Copper:** PFS targeted by end-2026; ECC targeted 2027
- **Uis / Lithium Ridge:** tin, lithium and tantalum growth pipeline
- **Kokoseb Gold:** exploration upside supporting future project flow

Priority: Timely approvals and infrastructure readiness

Employment

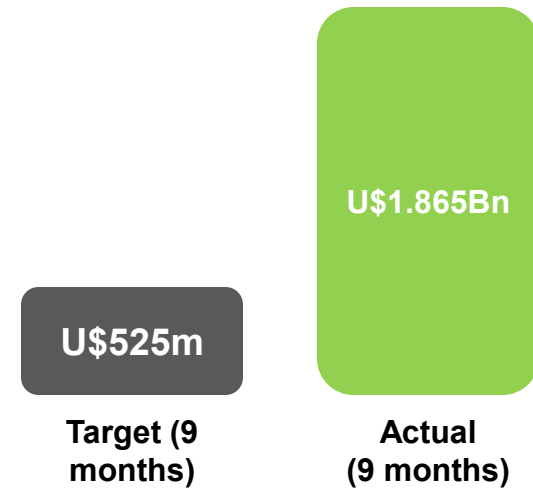

Total Target (over 48 Months):
18,000 jobs

- Progress to date: 3,054 jobs created.
- 9.5% below target (321 jobs)

Investments

Total Target (over 48 Months):
U\$2.8Bn

- Progress to date: U\$1.865Bn invested
- Well above target

Way Forward

NamPPF's Economic Recovery Unit has prioritised two reform areas with direct relevance to mining.

1

Unlock investment and regulatory certainty

- Finalise the Investment Bill
- Implement investor visa reforms
- Clarify beneficial-ownership and shareholding policy

2

Reform licensing and permitting

- Advance sector-specific reforms
- Reduce approval bottlenecks affecting mining
- Track implementation through NamPPF 2

The Chamber looks forward to feedback on reform progress at the upcoming NamPPF 2.

Thank you
